

# Present Functionality of TaxEase

*Fig 1: Basic Landing Page – to be enhanced in next version*

*Fig 2.1: Basic Upload Page – Allows users to upload tax documents (PDFs, images). The backend processes these files using **Google Vision API** for OCR-based data extraction, automatically populating relevant tax fields.*

*Fig 2.1: Basic Upload Page – Depicting uploading functionality*

*Fig 3: AI Chatbot Interface – Provides real-time assistance for tax-related queries. Users can ask tax questions, get personalized tax-saving suggestions, and clarify deductions. The chatbot, powered by OpenAI's GPT, offers intelligent, context-aware responses and ensures a smooth user experience.*
